DS3000 Android Console

DS3000 Android console adopts the original Android 7.1, supports the application expansion based on open Android platform. The device adopts 11.6 inch capacitor screen with 1920*1080 HD resolution, and the shell is made of aluminum alloy. It is suitable for all kinds of audio and video software based on Android and B/S architecture, and realizes multimedia command and scheduling.

DS3000 provides SIP SDK, coordinate with USB camera, it can achieve 1080P video communication. It is suitable for public safety, armed police,energy industry, transportation industry, securityindustry and other dispatching centers.

HD Video

Features HD camera, support 1080P video, a physical private cover, H.264 video coding, HD picture transferring
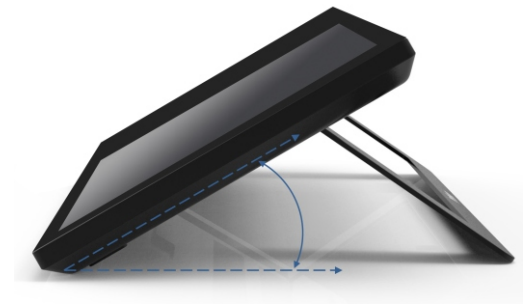

| 1080P	H.264	1920X1080

Humanized Design

DS3000 is equipped with professional hinges, which can adjust angle freely according to different scenarios and needs, it was the embodiment of human-centered product design concept.

# Provide SIP SDK and hardware development interface

In order to meet the needs of multimedia communication in different industries, we can provide SIP SDK and video library for secondary development for communication system integrators and software developers. It is widely used in command and dispatch, telemedicine, education, transportation and other industries.

Quad-Core Cortex-A17 1.6GHz, 2/4GBRAM,16GB Flash

01 Powerful core

02 Android OS

Android 7.1

06 SDK

Provide SIP SDK and video library

03 Interface

3 x USB、1 x mini HDMI out
1 x OTG port、3.5mm port
2 x key

05 Goose neck microphone

Goose neck microphone

04 HD

100mega-pixel camera
1920*1080 IPS LCD

DS3000 Specification

Model	DS3000
Product name	Android Console
OS	Android 7.1
CPU	Quad-Core 1.7GHz
GPU	ARM Mali-T764 gpu core
RAM	2G
Flash	16G
LCD	11.6" IPS 1920X1080
USB	3
RJ45	1 x 1000M
Headphone jack	3.5mm
HDMI	1 x HDMI out
Power	AC 100-240V DC 12V/2A
Speaker	3W
Camera	1080P USB Camera
Goose neck microphone	√
Size	41.80 * 20.50 * 3.50 CM
